# GROUP OF COMPANIES

Our companies **GERBOR-holding** and **Volyn Furniture Company-Ukraine (VFC-Ukraine)** are one of the largest furniture manufacturers in Ukraine, for a good reason occupying one of the leading positions among the manufacturers of top-quality modular furniture. As of today we earned the trust of hundreds of customers both at the European Market and the former CIS, Asia, Africa, and America. More than 2,000 workers are involved in our enterprises. The warehousing areas make up more than 150,000 square meters. Our goods are sold at more than 2,000 salons on the territory of more than 33 world countries.

Our factories produce the widest range of modular furniture: sets for youth rooms, living room furniture, bedroom furniture, entrance halls, kitchens and modular (system) furniture. The large-scale production allows reducing the expenses and provides for the low prices of our furniture. The implementation of modern production technologies and application of well-thought-out decisions provides for the eco-friendly operation of our plants without polluting the environment. Analyzing the combination of modern trends in the design with the state-of-the-art developments we get the result which is the well-combined functionality and esthetics. Any and all possible sets and different modules allow easily placing and combining the furniture into separate compositions.

Our companies take special care of the health of our customers who trust us to purchase our products. All materials applied in the production process are eco-friendly and harmless for human health. The furniture is fully certified and complies with the common standards and norms. Our rich international experience in the production and trading, state-of-the-art technologies, and thorough control are the elements providing for the top-quality of our products and services.

# Koen

A unique collection that combines the best of both classic and contemporary styles. The rich colors of the cabinet fronts will bring a sense of austerity and solidity to your interior, while the elegant hardware and decorative trim will soften that initial impression, adding a touch of lightness and serenity. We would also like to highlight an important feature of the collection: the wide variety of modules, which will allow you to easily create the interior of your dreams - one that is both functional and eye-catching. *Manufactured by "Gerbor-Holding".*

# Wardrobes

## *Comfort, convenience, good order...*

Is derived from the notion "armoire" denoting the cabinet for keeping the clothes and linen, usually with two doors and shelves inside. Large wardrobes for keeping the stuff have become popular since the 17th century.

Nowadays practical wardrobes with different textures and fittings enjoy great popularity.

# Mario

Today, a sliding-door wardrobe is no longer a luxury item but a common piece of furniture that fits perfectly into a room's interior. Modern sliding-door wardrobes are made from affordable materials but offer good quality and a long service life. The main advantage of a sliding-door wardrobe compared to traditional furniture is the saving of living space, which is particularly relevant in today's living conditions. A sliding-door wardrobe is suitable for any room, from the entryway to the bedroom. A sliding-door wardrobe is an indispensable item for both home and office.
